

Fibonacci Sequence / Ratio

- Discovered by Leonardo Fibonacci around 1200 AD that relies on the number sequence which is the sum of the two preceding values (1, 1, 2, 3, 5, 8, 13, 21...)
- Seen In Nature - Plants, Trees, Shells, Solar System, Humans...
- Divide Larger by Smaller and you get a proportional relationship which is close to 1.618 = (ex. 144/89)
 - $1/1.618 = 0.618$ Golden Ratio
 - $1-0.618 = 0.382$
 - $\sqrt{0.618} = 0.786$

Fibonacci Retracement

Trade Management Using Fibonacci / Symmetry

- Basic Elliott Wave Theory
 - Impulse Waves (5)
 - Corrective Waves (3; A, B, C)
- Fibonacci Measurements
 - 38.2, 50.0, 61.8, 78.6, 100, 123.6, 161.8, 261.8, 361.8
- Symmetry Measurements
 - 1=5
 - 2=4
 - A=C
 - When C > A; Look for it to become 3...
 - Break 100, Look for 161.8
 - Fractal in Size

Trade Management Using Fibonacci / Symmetry

Trade Management Using Fibonacci / Symmetry

- Keep Track of Market on 8 Brick or Larger
- Know The Basic Wave Options
 - Make sure you are not taking a position into
 - Symmetry Target
 - Wait for C to become 3
 - Danger Fibonacci Targets
 - 161.8, 261.8, 361.8
